PARENTAL PERMISSION

We can promote positive attitudes about human growth and development by working together. A child's parent or guardian has the primary role as educator in human growth and development for their child. As parents, you have the right to decide if your child will participate in the School District of Beloit Turner's Human Growth and Development Program. Upon request, you will be given the opportunity to preview the curriculum. Alternative programming may be designed, with parental involvement, for students who do not participate in this unit. Contact your child's teacher regarding alternative programming.

Dr. Dennis McCarthy, Superintendent
Dawn Maxwell, Director of Pupil Services
Beloit Turner School District

School District of Beloit Turner

Powers
Elementary
School

Human Growth and Development
(HG&D)

Guidelines for: Pre-K thru 2nd Grade

Mission Statement

The School District of Beloit Turner will supplement the parental/guardian role as the primary educator in human growth and development. The school's role is to provide developmentally appropriate, research based, information that will encourage students to make informed, safe and healthy lifetime choices.
